

# GREEN-DURA

Turf and Divot Sand Colorant

A natural look for warm and cool season turf grasses.

# 5 reasons to Choose Green-Dura Turf and Divot Sand Colorant

- Improves color vibrancy when the turf is discolored from seasonal dormancy or stress.
- Flexible use as a turf paint or divot sand colorant.
- Recommended for use on all sports or playing fields when rub off is a concern.
- Economical alternative to overseeding.
- UV resistant and does not contain hazardous chemicals, heavy metals, or other ingredients known to be harmful to turf.

## Directions for Use

May be applied to growing or non-growing grass. For best results, apply to dry turf when the temperature is above 40°.

Allow the application to dry fully before re-entry.

The use of Teflon seals to aid in the prevention of leaks when using GREEN-DURA colorant in centrifugal pumps is recommended.

Standard ceramic seals may leak during operation.

DO NOT ALLOW TO MIX TO STAY IN TANK OR LINES OVERNIGHT. PROTECT FROM FREEZING. LIMITED SHELF LIFE.

## APPLICATION RATES

Turf & Sports Fields	For non-dormant turf: Use rates begin at 2.5 gallons (9.46 liters) colorant to 50 gallons (190 liters) water per acre.
	For dormant turf: Use 5 gallons (18.93 liters) colorant to 50 gallons (190 liters) water per acre.
Divot Sand	Mix 8 ounces (237 mL) of colorant to 8 ounces (237 mL) of water for every 100 pounds (45 kg) sand.

Mow turf if necessary before applying. 2 applications may necessary for desired coverage. Longer and fuller grass may require the higher rate of GREEN-DURA. Adjust rates as needed.

**Available In:**  
Quart Bottles  
1 Gallon Jug  
2.5 Gallon Jug

## QUALITY ASSURANCE

*Exacto® products are manufactured with pride at our production facility in Sharon, Wisconsin. Each batch is inspected by our Quality Assurance Team to ensure it meets our high standards.*
