

# WIDEOUT™

WETTER • SPREADER • PENETRANT

## ACTIVE INGREDIENT

POLYETHER-POLYMETHYLSILOXANE-COPOLYMER .....100%

All ingredients are exempt from tolerance under 40 CFR 180.

## KEEP OUT OF REACH OF CHILDREN WARNING

Read entire label for additional precautionary statements.

FOR PROFESSIONAL USE OR INDUSTRIAL USE ONLY

### PRECAUTIONARY STATEMENTS

Causes serious eye irritation. Harmful in contact with skin. Harmful if inhaled. Avoid using product in a manner as to directly, or through drift, expose workers or other persons. Use only outdoors or in a well-ventilated area. Always follow the precautionary statements on the label of the pesticide(s) or micro-nutrients that are to be used with WIDEOUT. Applicators and other handlers should wash hands with soap and water before eating, drinking, chewing gum, using tobacco or using the toilet. Applicators and other handlers must wear goggles or a facial splash shield; chemical resistant gloves such as nitrile rubber ≥14 mils or neoprene rubber ≥14 mils; coveralls or long-sleeved shirt and long pants; shoes plus socks and mist-filtering respirator. Wash the outside of gloves before removing. Remove protective and other contaminated clothing and equipment after handling and wash it before reuse. Wash thoroughly and change into clean clothing.

### FIRST AID

**IF IN EYES:** Immediately wash eyes with large amounts of water for at least 15 minutes, lifting the lower and upper lids. Remove contact lenses if present and continue rinsing. If irritation persists, seek medical attention IMMEDIATELY.

**IF ON SKIN OR CLOTHING:** Remove contaminated clothing and immediately wash contaminated area with large amounts of water for at least 15 minutes. Call a poison center or doctor if you feel unwell.

**IF SWALLOWED:** If person is conscious, immediately give large quantities of water and induce vomiting. UNLESS OTHERWISE LABELED ON PESTICIDE(S), DO NOT INDUCE VOMITING or give fluids by mouth to an unconscious person. Seek medical attention immediately.

**IF INHALED:** Move person to fresh air and check to ensure adequate respiration. If you feel unwell, seek medical attention immediately.

## GENERAL INFORMATION

**WIDEOUT** is a surfactant based on organo-modified siloxane technology for use in water-based pesticide formulations.

**WIDEOUT** is a highly effective nonionic wetter, spreader, penetrant and readily biodegradable surfactant.

**WIDEOUT** effectiveness may allow the use of the lowest labeled pesticide rate at the lowest recommended surfactant level.

Careful observation of spray application is recommended to determine proper and efficient pesticide application. This will optimize the pesticide and surfactant load levels. Read warning and precautionary statements carefully before use.

While **WIDEOUT** has been proven to be a highly efficient surfactant; timing, weather conditions and methods of application, crop conditions, and/or mixture with other chemicals not specifically recommended are beyond the control of the seller. Therefore, the user should carefully observe spray deposits, rate efficiencies, compatibilities and effectiveness in initial application and adjust the adjuvant rates accordingly.

**WIDEOUT** enhances permeation through wetting resistant surfaces and rapid penetration to the mode of action site.

Low foaming and compatible with most active ingredients in all crop and non-crop applications when the active ingredient label permits or does not exclude an organosilicone (OSS) surfactant.

### DIRECTIONS FOR USE

Pesticide manufacturers may recommend a rate of a nonionic surfactant to be used with their product. Follow the pesticide or active ingredient label recommendations on the use of nonionic surfactants. However, if the pesticide or active ingredient label does not prohibit the use of a nonionic surfactant, **WIDEOUT** should be applied at the rates listed below.

Careful observation of spray performance in a trial application with the combinations of chemicals to be applied is recommended to determine proper and efficient surfactant rates.

If the user does not have experience with the mixture being applied, perform a jar test using the order and amounts in the mixture and perform a phytotoxicity test to ensure crop safety.

Not for aquatic use in Washington state.

### AS A SPRAY ADJUVANT FOR PESTICIDES

Application	WIDEOUT per 100 gal of spray solution
HERBICIDES	6-13 ounces
DEFOLIANTS	6-13 ounces
MICRO-NUTRIENTS	4-8 ounces
INSECTICIDES	4-8 ounces
FUNGICIDES	4-8 ounces
AERIAL APPLICATIONS	12-16 ounces

## AS A SOIL WETTING AGENT: GOLF COURSE TEES AND GREENS

Apply a concentration of 0.1% v/v or use the Spray Rate Chart below

Spray Rate/ 1000 sq. ft	Amount of WIDEOUT in mix
1.0 gallon	1/8 ounce
1.5 gallon	1/5 ounce
2.0 gallon	1/4 ounce

Repeat as needed to overcome hydrophobic soil conditions. Irrigation is not needed but will help incorporate the treatment into the soil.

### FOR LARGE AREAS OF APPLICATION:

Apply at a rate of 1-2 ounces per acre. Typically applied in 10-20 gallons of water per acre.

Apply weekly applications or as part of a maintenance program to overcome hydrophobic soil conditions and localized dry spots.

### IMPORTANT: ADDITIONAL OPERATING INSTRUCTIONS FOR CHEMIGATION

Review your state and local regulatory requirements before applying any adjuvant of agricultural chemical through an irrigation system. Refer to the SUPPLEMENTAL LABELING FOR CHEMIGATION APPLICATIONS for additional use requirements and restrictions.

### MIXING INSTRUCTIONS

1. Fill tank to 2/3 to 3/4 full of water. If foaming is anticipated, add an anti-foaming agent before pesticide and **WIDEOUT**.
2. Add pesticide as directed by pesticide label.
3. Continue agitations.
4. Add **WIDEOUT** and continue filling tank while maintaining agitation.

### STORAGE AND DISPOSAL

Keep container tightly closed. Store in original container only. Keep in a secure and locked storage area. Do not add water to the contents of this container. Triple rinse container, empty rinse water into the spray tank. Dispose of the empty container in accordance with federal, state and local law.

WARRANTY STATEMENT: EXACTO®, INC. (Exacto) represents and warrants that its products are manufactured in accordance with the product's specifications and that its products, at the time of delivery to the purchaser, shall be free from all material defects. EXACTO MAKES NO WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, CONCERNING THE PRODUCT, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE DISCLAIMED. FURTHER, IT IS UNDERSTOOD AND AGREED THAT EXACTO'S LIABILITY SHALL NOT EXCEED THE RETURN OF THE AMOUNT OF THE PURCHASE PRICE PAID BY PURCHASER AND UNDER NO CIRCUMSTANCES SHALL EXACTO BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES. Products for which a warranty claim is made are to be returned transportation prepaid to Exacto's production facility. Any use not in accordance with product directions and precautionary statements, and any modifications or additives to the products, or any adulteration, dilution or alteration by the purchaser shall void this warranty. No employee or representative of Exacto is authorized to change this warranty in any way or to grant any other warranty.
