

# Wishbone™

*TPC Deere Run*

## Revive turf from drought and localized dry spot (LDS)

- Reduces wetting resistance associated with LDS and environmental stress in turf environments
- Penetrates hydrophobic soil layers fast
- Facilitates the permeation of water into the root zone

## Directions for use

The most common use rate is 8 oz. per 1000 sq. ft. Refer to the label for recommendations for your use case. Irrigate before next mowing or leave baskets off.
