

# **COMPLETION**

# WATER CONDITIONING AGENT

#### PRINCIPAL FUNCTIONING AGENTS

Ammonium sulfate, 2-hydroxy-1,2,3-propanetricarboxylic acid, sodium tripolyphosphate	44.8%
Constituents ineffective as spray adjuvants	55.2%
TOTAL	100%

CA Reg. No. 54267-50028-AA

# KEEP OUT OF REACH OF CHILDREN CAUTION

#### PRECAUTIONARY STATEMENT

Avoid contact with skin, eyes or clothing. Do not take internally. Do not eat, drink, smoke or chew gum while using this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. In addition, follow precautionary statements on all products used with this material. Clean affected clothing, shoes, and protective equipment before reuse.

Personal Protective Equipment: Wear chemical-resistant eyewear and gloves, long-sleeve shirt and pants and shoes and socks.

#### FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

NET CONTENTS: 2.5 U.S. Gallons (9.46 L)

#### GENERAL INFORMATION

COMPLETION™ is formulated with sequestering and complexing agents to condition water of unknown quality and should be used whenever the active ingredient label calls for the addition of ammonium sulfate (AMS) to the tank mix.

**COMPLETION™** is recommended for use with tank mixes that combine weak-acid herbicides such as glyphosate, with growth regulator herbicides such as 2,4-D, and other active ingredient mixtures.

Does not antagonize glyphosate and helps to prevent alkaline hydrolysis.

**COMPLETION™** is easier to handle, transport and store than dry AMS. Blends quickly for reduced mixing and loading times

Contains ammonium sulfate (AMS).

**COMPLETION™** does NOT contain oil or surfactant, but is compatible with these products.

## **DIRECTIONS FOR USE**

Not For Aquatic Use.

Follow the directions on the most restrictive label of the tank mix partners.

Tank mixtures should only be applied within the label recommendations of every product in the tank mixture.

Use only if a water conditioning agent containing ammonium sulfate (AMS) is allowed or not excluded on the label.

Use only with herbicides that allow lower pH conditions. Do not use with copper containing active ingredients.

If the user does not have experience with the mixture being applied, perform a jar test using the order and amounts in the mixture and perform a phytotoxicity test to ensure crop safety.

#### Order of addition

In general, follow the W-A-L-E-S plan when adding herbicides to a tank mix.

- 1. Wettable Powders (WP) then Flowables (F, DF)
- 2. Agitate then add anti-foaming compounds.
- 3. Liquid and Soluble products
- 4. Emulsifiable concentrates (EC)
- 5. COMPLETION™ or other adjuvants

### **USE RATES**

Application	Pints <b>COMPLETION™</b> per 100 gallons of spray solution
Ground	1-4
Aerial	2 - 4

### STORAGE AND DISPOSAL

**Storage:** Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product. For optimal storage, store between 40° and 90° F.

**Disposal:** Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

WARRANTY STATEMENT: EXACTO\*, INC. (Exacto) represents and warrants that its products are manufactured in accordance with the product's specifications and that its products, at the time of delivery to the purchaser, shall be free from all material defects. EXACTO MAKES NO WARRANTIES OF ANY KIND, EXPRESS OR IMPLED, CONCERNING THE PRODUCT, INCLIDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE DISCLAIMED. FURTHER, IT IS UNDERSTOOD AND AGREED THAT EXACTO'S LIABILITY SHALL NOT EXCEED THE RETURN OF THE AMOUNT OF THE PURCHASE PRICE PAID BY PURCHASER AND UNDER NO. CIRCUMSTANCES SHALL EXACTO BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES. Products for which a warranty claim is made are to be returned transportation prepaid to Exacto's production facility. Any use not in accordance with product directions and precautionary statements, and any modifications or additives to the products, or any adulteration, dilution or alteration by the purchaser shall void this warranty. No employee or representative of Exacto is authorized to change this warranty in any way or to grant any other warranty.
