

GREEN-DURA™

TURF & DIVOT SAND COLORANT

PRINCIPAL FUNCTIONING AGENTS

A proprietary blend of colorant and application aids 100.00%

SHAKE WELL BEFORE USE

DO NOT FREEZE

KEEP OUT OF REACH OF CHILDREN CAUTION

PRECAUTIONARY STATEMENTS

Read label before use. Keep container tightly closed. Keep only in original container. Do not eat, drink or smoke when using this product. Avoid breathing dust, fume, gas, mist, vapors or spray. Wash hands thoroughly after handling. Wear protective gloves, protective clothing, eye protection and face protection.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

If Swallowed: Do not induce vomiting. Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water for several minutes.

If Inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

If in Eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing.

GENERAL INFORMATION

GREEN-DURA™ is a persistent, UV resistant colorant and spray pattern indicator recommended for use on sports fields, turf and sod farms. May be applied to growing or non-growing grass.

GREEN-DURA rapidly revitalizes the appearance of off color turf without the cost of over seeding during the dormant season.

GREEN-DURA may be used to color divot sand and as a spray pattern indicator.

GREEN-DURA is the professional's choice for high impact sports turf where player uniform staining is a concern.

DIRECTIONS FOR USE

Caution should be used when applying this or any other product on turf. The use of teflon seals to aid in the prevention of leaks when using **GREEN-DURA** colorant in centrifugal pumps is recommended. Standard ceramic seals may leak during operation.

Mow turf if necessary before applying.

Do not spray to run-off. For best results, use a flat fan nozzle with fine particle size.

Spot test for acceptable color depth prior to full scale spraying.

Retain mix rate records as a reference tool for future spray applications.

Avoid over-spray where not desired such as concrete, hardscaping and other areas. Staining will occur.

Immediately rinse accidental over-spray areas with water prior to drying.

Though phytotoxicity has been evaluated, care should be taken by conducting a jar test or testing this product on sensitive plants before full application is performed.

EQUIPMENT CLEAN-UP:

After spraying, fully rinse tank and ensure that all lines, filters, and nozzles are clear of mix.

DO NOT ALLOW MIX TO STAY IN TANK OR LINES OVERNIGHT.

Prior to mixing, fill the spray tank with half of the carrier. Start the sprayer and check to make sure that all valves and gauges work and that there is adequate tank agitation. For best results, apply to dry turf when the temperature is above 40°. Allow the application to dry fully before re-entry.

APPLICATION RATES

Turf & Sports Fields

For non-dormant turf: Use rates begin at 2.5 gallons (9.46 liters) colorant to 50 gallons (190 liters) water per acre

For dormant turf: Use 5 gallons (18.93 liters) colorant to 50 gallons (190 liters) water per acre.

Divot sand: Mix 8 ounces (237 mL) of colorant to 8 ounces (237 mL) of water for every 100 pounds (45 kg) sand. Two applications may be necessary for desired coverage. Longer and fuller grass may require the higher rate of **GREEN-DURA**.

Adjust rates as needed.

STORAGE AND DISPOSAL

Storage: DO NOT FREEZE! Limited shelf life. Shake well before using. Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

Disposal: Do not contaminate water, food or feed by disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all local, regional, national and international regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org.

WARRANTY STATEMENT: EXACTO®, LLC (Exacto) represents and warrants that its products are manufactured in accordance with the product's specifications and that its products, at the time of delivery to the purchaser, shall be free from all material defects. EXACTO MAKES NO WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, CONCERNING THE PRODUCT, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE DISCLAIMED. FURTHER, IT IS UNDERSTOOD AND AGREED THAT EXACTO'S LIABILITY SHALL NOT EXCEED THE RETURN OF THE AMOUNT OF THE PURCHASE PRICE PAID BY PURCHASER AND UNDER NO CIRCUMSTANCES SHALL EXACTO BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES.
