

# Lateral™ Pro G

The Game-Changer  
for Consistent  
Playing Surfaces

## Easy-to-use granular wetting agent for sports turf management

### Consistent Soil Moisture & Surface Firmness

- Enables more control over surface firmness and consistency
- Lowers surface tension of water, allowing for greater infiltration into the root zone
- Alleviates soil hydrophobicity, facilitating uniform water penetration and distribution throughout the field
- Reduces dry spots, decreasing the potential for overwatering and improving irrigation efficiency

### Optimized Turf Health & Increased Stress Tolerance

- Improves surface consistency by optimizing turf density and cover
- Promotes healthy and vibrant growth through optimized water availability
- Strengthens tolerance to heat and drought stress
- Supports the ability to recover from stressors
- Easy broadcast application

### Directions for Use

**First Application:** 2.5-5 lbs per 1000 sq ft

Re-apply every 30 days or as needed to prevent yellowing/  
browning symptoms from re-appearing.

**Particle Size:** 170 SGN\*

\*(Size Guide Number)

**Contact your Exacto  
Account Manager for  
ordering information.**
